## Case Studies

Nisha Devi, from Brhamni village of Hamirpur District comes from a family of 5 with very difficult financial background. Her father, a farmer with meagre income of 6000 is the sole breadwinner of the family. Nisha had to discontinue her education owing to the extremely difficult financial conditions. Nisha always wanted to help her father run the house.

Nisha heard about the free training program being offered by CAP under a project funded by Vodafone India through a mobilization camp that was being conducted in her village. She says “I was lucky to meet the mobilization team at my village. I learnt about the Basic Employability Skills Training programme and felt that by dream of being employed can come true”

Nisha was willing to get admission into any course that would help her get a job, based on the interest inventory test that is used to map the student personality with the courses that are being offered she was enrolled into ITES domain.

“Nisha was always eager to learn, it was always active” recalls her facilitators. “ The work readiness module was my favorite says Nisha”

On successful completion of the training, Nisha Devi was placed at Caregam Co Ltd, Hamirpur as Data Entry Operator with a monthly salary of 6000. "She has set an example for the youth in the area by pushing her life from one end of darkness to the extreme other end" says the proud father.

### **Rohit Verma**

Rohit Kumar is a very enthusiastic and innovative candidate who belongs in BPL family of Anukalan area in Hamirpur.

Rohit lost his father in his early childhood. Rohit's elder brother is the sole breadwinner for the family of 5 members. Despite working double shifts for days together they were unable to meet the basic needs of the family. Rohit seeing the plight and helplessness of his brother was determined to support his family however was clueless on the direction to achieve his goals.

Rohit always dreamed of starting something on his own but financial condition of his family would not support the same. Rohit heard about the program through one of the mobilization camps that has been conducted in his area and decided at once to join the program.

Rohit showed keen interest in joining in mobile servicing and repairing trade as it would in future give him a scope to be an entrepreneur. "Being a regular and punctual candidate Rohit excelled in his trade" recalls the facilitator. "This is the best opportunity I could ever get" says Rohit

After completing of the classroom training Rohit secured on the job training cum placement opportunity with Micromax Care Center hamirpur as Technical Operator with a salary of Rs. 4200/month-.

Rohit says, "I am very glad that I joined this training programme and am looking forward to giant strides in my life. I thank all those who are associated with this program for giving me an opportunity".
